

Summary of Sexual Abuse Claims in Chapter 11 Cases of Boy Scouts of America

There are approximately 101,135 sexual abuse claims filed. Of those claims, the Tort Claimants' Committee estimates that there are approximately 83,807 unique claims if the amended and superseded and multiple claims filed on account of the same survivor are removed. The summary of sexual abuse claims below uses the set of 83,807 of claim for purposes of claims summary below.¹

The Tort Claimants' Committee has broken down the sexual abuse claims in various categories for the purpose of disclosing where and when the sexual abuse claims arose and the identity of certain of the parties that are implicated in the alleged sexual abuse.

Attached hereto as **Exhibit 1** is a chart that shows the sexual abuse claims broken down by the year in which they first arose. Please note that there approximately 10,500 claims did not provide a date for when the sexual abuse occurred. As a result, those claims have not been assigned a year in which the abuse first arose.

Attached hereto as **Exhibit 2** is a chart that shows the claims broken down by the state or jurisdiction in which they arose. Please note there are approximately 7,186 claims that did not provide a location of abuse. Those claims are reflected by YY or ZZ in the codes used to identify the applicable state or jurisdiction. Those claims have not been assigned a state or other jurisdiction.

Attached hereto as **Exhibit 3** is a chart that shows the claims broken down by the Local Council implicated in the sexual abuse. Please note there are approximately 39,177 sexual abuse claims that did not identify a Local Council. In addition, certain sexual abuse claims implicated more than one Local Council. In those instances, the claims are categorized implicating multiple councils.

Attached hereto as **Exhibit 4** is a chart that shows the sexual abuse claims broken down by the Chartered Organization / Sponsoring Organization implicated in the sexual abuse. Please note that approximately 48,041 claims did not identify a Chartered Organization / Sponsoring Organization.

The information summarized in the attached charts was exported by the Boy Scouts' professionals from the filed sexual abuse claims. It has come to the attention of the Tort Claimants' Committee's professionals that not all the information was exported error free. The Tort Claimants' Committee intends to address with the Boy Scouts' professionals any information discrepancies in the claims data to help in ensure the information is collected uniformly and accurately.

If you have any questions about the attached, please send them to BSASurvivors@pszilaw.com.

¹ All information herein was gathered from electronic exportation of data from the sexual abuse proofs of claim.
